LET'S GO
GREEN 

By nature,
environment lovers!

olivotappeti.com

Microplastics represent the sad legacy we are leaving for future generations, a heavy burden from which we must free ourselves.

With the **BOTTLEWEAVE doormat** by Olivo Tappeti, we see the power of transformation, a return to life, and the opportunity to mend the world we love.

Recycling PET bottles is an essential practice to reduce environmental impact.

DOORMAT

BOTTLEWEAVE

100%
RECYCLED PET BOTTLES

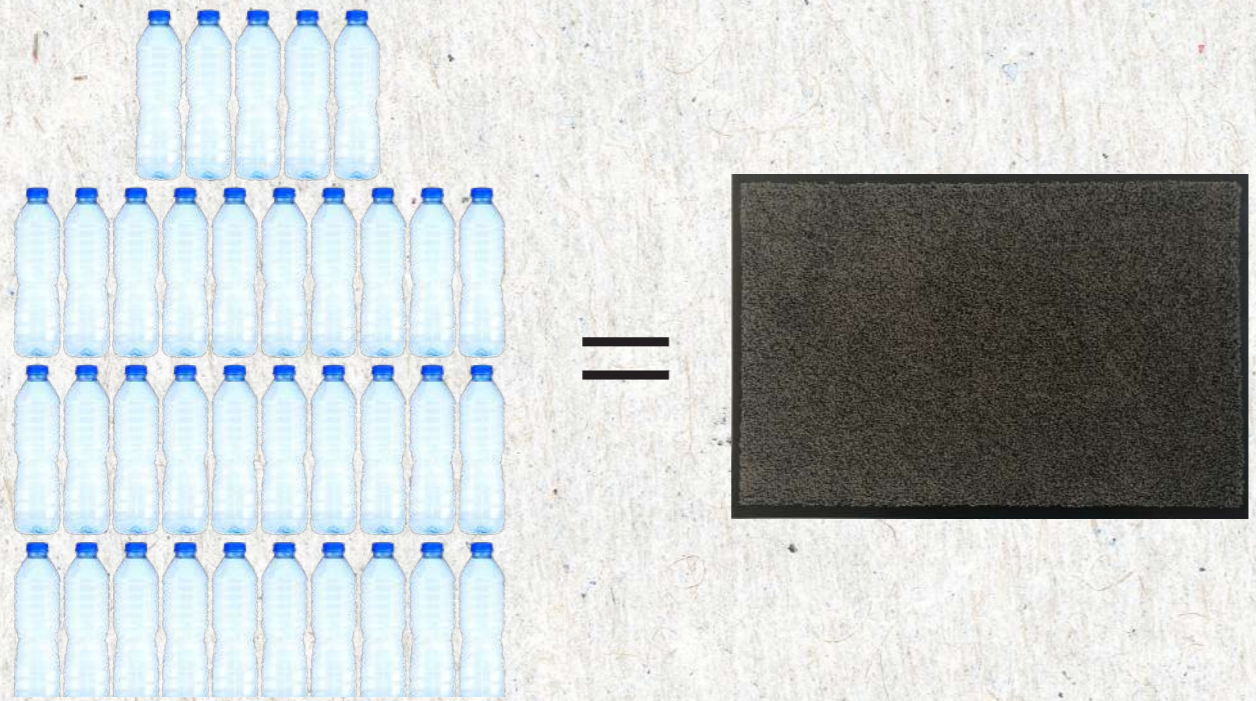

This **recycling process** not only helps **reduce the amount of plastic** sent to landfills or scattered in the environment, but also contributes to **preserving natural resources** and mitigating air pollution.

It's never too late
to make a
difference;
the past can be
transformed into...
BOTTLEWEAVE

35 plastic bottles...

...1 doormat **BOTTLEWEAVE**

80% of PET bottles in Europe and Asia are washed, melted, and ground into small flakes.

This results in a **70%** reduction in energy usage and an **85%** reduction in the water needed to produce polyester threads, leading to significant **reductions in CO2 emissions.**

Certified

**100% RECYCLED
material**

Every eco-friendly
action is a
step towards
a better world,
a commitment
to building a
cleaner and more
sustainable future.
